No.20 Rental of Visitor's Code Reader [Charge]

With the consent of guests, barcodes will be used to manage guest information at this exhibition.

The business card information and questionnaire information provided when a guest visits the exhibition can be obtained simply by scanning an admission pass on a barcode reader.

How to use the barcode reader

Simple Operation

1. Use the barcode reader to scan the barcode on an admission pass when a guest visits your booth.
Data that is scanned during the exhibition is stored in the barcode reader.
2. After scanning an admission pass, you can add data to the guest's information by scanning the barcodes on the Request Code Table (free of charge).

Request Code Table (free of charge)

A convenient system for adding data to business card information!

This table includes a list of questionnaire items that are set in advance.

Simply scan an admission pass, and then scan an item on the table to link that data with the guest's information.

You can prepare your own Request Code Table on our website before the exhibition starts. Then, simply print it out to use it.

User Consent Please read the following points carefully before submitting an application.

<Notes on the use of this barcode system>

1. The memory in barcode readers is operated by battery power.
If the unit is kept with reduced battery charge for a long period of time, or is subjected to strong impact due to dropping, etc., the memory data in the barcode reader could be lost.
2. If the unit displays voltage drops, strong shocks or water damage, etc., please notify the SOU staff stationed at the venue as soon as possible.
3. Although the rental equipment is fully maintained, we cannot assume any responsibility for damage caused by loss of memory data due to malfunction.
4. Barcode readers are to be carefully managed by the exhibitor for the duration of the exhibition. If a unit is lost or stolen or in the event of damage to equipment due to the circumstances described in (1) and (2) above, the exhibitor will be responsible for paying for its replacement and SOU shall bear no responsibility for any loss of data that occurs. Please manage and store all units with care.

<Notes on the use of personal information collected through the Code Reader system and this exhibition>

1. Do not resell acquired personal information.
2. Personal information obtained should be used only within your company, unless you have obtained the consent of the individual.
3. When acquiring information, confirm the individual's intention, and if the individual refuses the use of the information provided, immediately discontinue the use of that personal information.
4. Appoint a personal information manager and take appropriate preventive measures against the loss or leakage of personal information obtained.
5. If you have obtained personal information that is clearly erroneous in any way, do not use it and delete it.
6. Take other appropriate measures in accordance with the Personal Information Protection Law.
